# Illustrated Parts Breakdown (IPB) CDD 1000 Aspen

**Steel Wheel  
Assembly (#12)**

**Plastic Top Guide (#13)  
(Exploded View)**

NO.	QTY	PART #	PART DESCRIPTION
#1	2		Door Panels
#2	1	S2020*	Top Channel
#3	1	S4040*	Bottom Track
#4	1	W0101	Wood Strip
#5	6	S0095*	#8 x 1-1/2" PH SMS Screw
#6	4	S0055*	#8 x 1/2" Truss Screw
#7	2	B0101	Clear Bumper
#8	4	N2030	Concrete Nail
#9	4	N1030	5 Penny Nail

NO.	QTY	PART #	PART DESCRIPTION
#10	4	S5050*	Side Mold
#11	4	S3030*	Top and Bottom Mold
#12	4	W8025	Steel Wheel Assembly
#13	4	G1005	Plastic Top Guide
#14	4	B3000	Top Guide Bracket
#15	16	S0085	#6 x 3/8" HWH Screw

Congratulations on purchasing your new CDD Wardrobe Doors. Now that you have opened the package, we want you to verify that you have all the necessary hardware supplied with your doors.

## ***PARTS CHECK LIST:***

**No. QTY DESCRIPTION**

(#1) 2 Door Panels

(#2) 1 Top Channel

(#3) 1 Bottom Track

(#4) 1 Wood Strip (located inside of track)

(#5) 6 #8 x 1-1/2" PH SMS Screws: 

(#6) 4 #8 x 1/2" Truss Screws: 

(#7) 2 Clear Plastic Bumpers: 

(#8) 4 Concrete Nails: 

(#9) 4 5 Penny Nails: 

## ***TOOL CHECK LIST:***

You will need:

- Phillips Screwdriver
- Tape Measure
- Hammer
- Pencil
- 3/8" Drill Motor and 3/16" and 1/8" Drill Bits
- Miter Box and Hacksaw
- Square
- Glass Cutter (for optional mirror fascia)
- 1" Screws and Screw Anchors (see Floor Check List, #5)
- Adhesive (see Floor Check List, #5)

## ***FLOOR CHECK LIST:***

### **1. Do you have carpet?**

It is highly recommended that if you have carpet and do not have a cut-out in the carpet already, you should cut the carpet in order to install the Bottom Track (#3). We do not recommend installing the Bottom Track (#3) directly on top of carpet.

### **2. Do you have a concrete, wood floor or ceramic tile floor?**

A. If it is a concrete floor, go to 3...

B. If it is a wood floor, go to 4...

C. If it is a ceramic tile floor, go to 5...

### **3. If you have a concrete floor you will:** Use Concrete Nails (#8) to attach Wood Strip (#4) to floor.

### **4. If you have a wood floor you will:** Use 5 Penny Nails (#9) to attach Wood Strip (#4) to wood floor.

### **5. If you have a ceramic tile floor you will:** Drill holes with a 3/16" Masonry Drill Bit. Insert Screw Anchors and attach Wood Strip (#4) to floor with Screws. Or, you may glue the Wood Strip (#4) down with panel Adhesive (Drill Bit, Screws, Screw Anchors and Adhesive are not supplied.).

## ***TRACK OFFSET MEASUREMENTS FROM FACE OF OPENING TO FRONT EDGE OF TRACK***

Track Offset	A	B
All Steel Track and Channel CDD 1000 Aspen	1/2"	1-1/2"

## INSTALLING THE DOORS

### STEP 1 Removing the Old Doors

Remove old doors, brackets, top channel and bottom track.

### STEP 2 Installing the Top Channel

- A. Measure the opening at the top of the closet from wall to wall.
- B. Cut the new Top Channel (#2) to this dimension. When cutting the Top Channel (#2) we recommend that you use a Miter Box and Hacksaw for a straight cut. Cut one side only.

**NOTE:** If your closet has bumper jambs you may need to notch your Top Channel (#2) on each end.

- C. When cut to proper length, install Top Channel (#2) up to the top front of closet opening making sure that the front of the Top Channel (#2) is flush with outside walls (See Figure 1). Hold up the Top Channel (#2) in the desired position and with your Pencil, mark where the pre-drilled holes are in the Top Channel (#2).

Figure 1

- D. Remove the Top Channel (#2) and drill holes using 1/8" Drill Bit where you made the pencil marks. Now install the Top Channel (#2) in place using the six #8 x 1-1/2" PH SMS Screws (#5).

### STEP 3 Installing the Bottom Track

- A. Make sure that you have used the FLOOR CHECK LIST to determine which floor and installation you will use.

**NOTE:** If the floor board molding continues into the closet opening, you may need to remove it so that the Wardrobe Doors will close flush to the wall.

Figure 2

- B. Locate Wood Strip (#4) supplied in kit and measure inside bottom closet opening and cut to length.
- C. Find the correct offset measurement using the **Offset Measuring Table** on Page 3 (**B** Measurement) for your particular installation. From the front edge of closet opening inward, measure using dimension from table and make a pencil mark on wall. Do this on both walls, i.e., right and left walls (See Figure 2).

Figure 3

- D. Place front of Wood Strip (#4) up to pencil mark on wall (See Figure 3). Do this on both sides. Now attach Wood Strip (#4) according to your Offset Measuring Table.
- E. Cut the Bottom Track (#3) to your measurement of the inside closet opening. Slide the Bottom Track (#3) over Wood Strip (#4) and attach with #8 x 1/2" Truss Screws (#6).

## STEP 4 Installing the Door Panels

- A. Make sure you have a pad or blanket to protect the Door Panels (#1) from scratches. Lay Door Panels (#1) with backside up on the floor. Locate one of the Steel Wheel Assemblies (#12) on the bottom of a Door Panel (#1). With a Phillips Screwdriver, turn the adjusting screw to the right to lower the roller. Do this until you have 1" of roller showing. Adjust both Wheel Assemblies (#12) on each Door Panel (#1) (This will avoid scratching the Bottom Track (#3) when installing the panel).

- B. Pick up one Panel (#1) and, with the mirror facing you, tilt the top of the Panel (#1) back and slip the Panel (#1) into the back runner of the Top Channel (#2). Next, set the bottom of the Panel (#1) into the back runner of the Bottom Track (#3).
- C. For the front Panel (#1), repeat B, but place the Panel (#1) into the front runner of the Top Channel (#2) and front runner of the Bottom Track (#3).

Figure 4

## STEP 5 Adjusting the Panels

Slide the front Panel (#1) to the side closest to the room's entrance door (This is how the Wardrobe Doors will be in position to look their best). Look at the space between the door edge and the wall. You want the door edge and the wall to be flush. If you see space at the top or bottom edge of the Panel (#1), turn the adjusting screw on top of the Steel Wheel Assembly (#12) on the lower back of the Panel (#1) nearest the wall. Turn the screw left or right until the Panel (#1) aligns flush with the wall (See Figure 4).

## STEP 6 Installing the Clear Plastic Bumpers

Peel paper off the back of the Clear Bumpers (#7) and place on the edge of the Panel (#1) frame 36" up from the bottom. The Clear Bumpers (#7) will cushion and protect the door and wall when you close the Wardrobe Doors (See Figure 5).
